

## Orano Canada Inc.

A subsidiary of the multinational Orano Group, Orano Canada has been exploring for uranium, mining and producing uranium concentrate in Canada for more than 55 years. The company operates the McClean Lake uranium mill and is a major partner in the Cigar Lake, McArthur River and Key Lake operations. Orano Canada is focused on providing a reliable and responsible supply of natural uranium to nuclear electricity producers around the world to produce low-carbon electricity. We are committed to being a responsible uranium miner in terms of health, occupational safety, community involvement and dialogue, environmental protection and business ethics. Our 2018 highlights demonstrate these commitments.

### Support for the Uranium Industry in Saskatchewan, 2000-2018

**80%** of respondents province-wide support uranium mining in northern Saskatchewan, including 38% who strongly support the industry. This is in line with 82% in 2017.

**82%** of Northern respondents support the uranium mining industry (43% strongly supportive), up from 73% in 2017.

Although annual surveys show fluctuations in support the rise and fall is within a relatively limited range. The current level of support is consistent with the long-term trend.
